

Team Involvement in Demonstration

Date	15 July 2026
Project Name	Rising Waters: A Machine Learning Approach to Flood Prediction
Maximum Marks	1 Mark

This document records participation during the Rising Waters demonstration. As an individual project, all roles were carried out by a single developer rather than distributed across a team.

S . N o	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation
1	Nanda Gunasri	Presenter, Developer, and Q&A Respondent (solo project)	All sections — Introduction, Solution Overview, Live Demo, Q&A	Designed, built, tested, and deployed the entire Rising Waters application independently, including the ML pipeline, Flask backend, and frontend UI	Active

Team Coordination Notes

Aspect	Details
Team Leader / Coordinator	Nanda Gunasri (individual project; self-managed)
Overall Team Coordination Rating (1-5)	N/A — individual project
Any issues during demo	N/A — individual project; no team coordination issues by design
How issues were resolved	N/A
